

SG650 RS

GLASS LIFTER WITH HYDRAULIC SWIVEL HEAD

Particularly suitable for lifting tasks, installation, and transport in warehouses and areas where standard cranes have difficulty reaching. This lifting equipment combines compactness and extreme solidity to provide a versatile solution for both indoor and outdoor tasks.

- **Traction** 2WD front-wheel drive
- **Max height** ~ 5,8m
- **Max lateral radius** 3,5m
- **Max payload Pick & Carry** 650 kg
- **Weight** 1.175 kg
- **Speed** 5 km/h
- **Dimensions** 2,07 x 0,89 x 1,52 m

BENEFITS

- Powerful, hydraulic glass robot with electric drive
- Load capacity up to 650 kg Pick & Carry
- Reach: 5.8 m high; 3.5 m in front of the wheels
- The highest safety measures in the industry
- Proportional control with potentiometer
- Monitoring with load cells
- Automatic speed reduction when the load limit is reached
- Weight display via LED
- Arm with 3 hydraulic telescopic segments
- Radio remote control (optional)
- Incredibly easy operation with joystick control arm
- Powerful electric motor with front-wheel drive
- Industry's lowest load center, meaning more stability
- Special tires, designed for difficult terrain
- Approved for indoor and outdoor use
- CE approved

FAST GLASS LIFTERS FOR SAFE INSTALLATIONS

Glass lifters enable the safe lifting and positioning of windows of varying sizes and weights. Suitable for indoor and outdoor use and facilitate installation work on confined or hard-to-reach construction sites.

Safe Lifting

Modern vacuum systems ensure a secure hold and reduce the risk of damage or accidents.

Precise Positioning

Finely adjustable controls allow for the exact alignment and installation of glass panes.

Efficient Workflows

Using glass lifters reduces installation times and minimizes manual effort.
